

Claude Enterprise Adoption Kit (Korea)

Executive PoC Deck

Goal

- Show safe enterprise adoption with clear business impact and governance.

Steps (with clicks/commands)

- 1) Open UI: <http://localhost:5173>
- - Screenshot: "00_login.png"
- 2) Click "Issue JWT" with role=Ops
- - Say: "Access is role-based and audited"
- 3) UC1: enter "Summarize handover risks for payments prod" -> Run
- - Screenshot: "01_uc1_citations.png" (shows citations)
- 4) Toggle citation-only mode -> Run
- - Say: "Sensitive mode limits output to citations"
- 5) UC2: paste error log -> Run
- - Screenshot: "02_uc2_tools.png" (shows tool calls)
- 6) Open metrics: <http://localhost:8000/metrics>
- - Screenshot: "03_metrics.png"
- 7) Open audit log: ``app/backend/data/audit.log``
- - Screenshot: "04_audit_log.png"

Closing

- - "Claude adapter is pluggable; security controls are already integrated"
- - "Evals and LLMOps are built in to reduce risk"
